# AI & Cloud AI Professional Academy

The AI & Cloud AI Professional Academy from Arcitura provides formal education and accreditation programs dedicated to contemporary AI technology and practices, including predictive AI, generative AI and cloud-based AI, as well as AI engineering and architecture.

The AI & Cloud AI Professional Academy curriculum is comprised of 23 course modules and 9 certification tracks. Exams are available worldwide via online proctoring and on-site delivery by Certified Trainers. Achieving a passing grade on the required exam(s) achieves a certification for which a digital accreditation certificate is automatically issued by Arcitura and a digital certification badge is issued by Acclaim/Credly.

## HOW TO TAKE THIS COURSE

### ARCITURA ELEARNING OPTIONS

To give you the most flexibility to achieve your learning goals and accommodate your preferences, this course is made available via two Arcitura eLearning solutions: An interactive environment with graded exercises and a graded self-test, as well as a study kit account that supports online/offline access and custom annotations.

To learn more, visit: [www.arcitura.com/elearning](http://www.arcitura.com/elearning)

To enroll, visit: [digital.arcitura.com/courses](http://digital.arcitura.com/courses)

### ONSITE WORKSHOPS

Private onsite workshops can be delivered by Certified Trainers from Arcitura and authorized training partners for both small and large groups. Each workshop participant can receive access to the full Arcitura Digital eLearning course materials. Each workshop agenda, format and schedule can be tailored to client requirements.

To learn more, visit: [www.arcitura.com/workshops](http://www.arcitura.com/workshops)

### VIRTUAL WORKSHOPS

Private virtual workshops can be delivered by Certified Trainers for small and large groups, as well as individual participants. Workshop participants receive access to the course materials via the Arcitura Digital eLearning platform. Virtual workshop agendas can be tailored with greater flexibility to accommodate more distributed and fragmented training schedules.

To learn more, visit: [www.arcitura.com/workshops](http://www.arcitura.com/workshops)

*Several additional learning and exam preparation products and services are available, including coaching, exam prep kits and digital downloads. See the Training and Exam Preparation Resources page for details.*

## HOW TO GET STARTED

Welcome to the Predictive AI course! This course is comprised of a set of modules. Each module has a set of lessons and is further supplemented with exercises to help reinforce your understanding of key topics. Upon completing the course, you can optionally proceed to prepare yourself for the certification exam (as explained on the *How to get Certified* page).

Additional resources are available to assist you with completing this course, including downloadable digital course files, printed course materials, coaching hours and instructor-led training services (as explained on the *Training and Exam Preparation Resources* page.)

*A Certified Predictive AI Specialist has gained a proven understanding of predictive AI practices and systems, including model training, learning techniques and neural networks.*

## HOW TO GET CERTIFIED

You can become a Certified Predictive AI Specialist! This course can prepare you for the official Predictive AI Specialist Certification exam, which can be taken worldwide.

Upon attaining a passing grade on the certification exam, you will achieve the Predictive AI Specialist Certification, after which you will automatically receive an official digital Accreditation Certificate and a digital Certification Badge from Acclaim/Credly with an account that supports the online verification of your certification status. Digital accreditation certificates and badges are free of charge.

Additional resources are available to assist you with preparing for the certification exam, including practice exam questions, downloadable digital course files, printed course materials, coaching hours and instructor-led training services (as explained on the *Training and Exam Preparation Resources* page.)

### MORE INFO

To learn more about this certification and exam, visit:

# Fundamental Predictive AI

This course module illustrates how predictive AI can be used and applied in a range of business applications, as well as essential coverage of predictive AI practices and systems. The module explores the most common learning approaches and functional areas that AI systems are used for. All of the content is authored in easy-to-understand, plain English.

The following primary topics are covered:

- Predictive AI Business and Technology Drivers
- Predictive AI Benefits
- Common Risks and Challenges of Using Predictive AI
- Business Problem Categories Addressed by AI
- Types of Predictive AI
- Common Predictive AI Learning Approaches
- Understanding Predictive AI Learning and Model Training
- Step-by-Step Training Loop Process
- Supervised Learning, Unsupervised Learning, Continuous Learning
- Heuristic Learning, Semi-Supervised Learning, Reinforcement Learning
- Common Predictive AI Functional Designs, Computer Vision, Pattern Recognition
- Robotics, Natural Language Processing (NLP)
- Speech Recognition, Natural Language Understanding (NLU)
- Understanding AI Models and Neural Networks

# Advanced Predictive AI

This course module provides insight into how predictive AI systems work by exploring common techniques for learning, data processing and manipulation, and AI system performance management. The course module does not cover any mathematical formulas or programming and is intended for general IT professionals.

The following primary topics are covered:

- Understanding Supervised Learning
- Understanding Unsupervised Learning
- Essential Analytics Techniques and Processes
- Introduction to Feature Encoding and Feature Imputation
- Introduction to Dimensionality Reduction
- Introduction to Data Wrangling
- Introduction to Model Evaluation and Training Performance Evaluation
- Introduction to Baseline Modeling and Model Optimization
- Introduction to Overfitting Avoidance
- Introduction to Transfer Learning

# Predictive AI Lab

This course module provides a series of case-study driven, lab-style exercises and problems that are designed to test your ability to apply your knowledge of topics covered in previous modules. Completing this lab helps reinforce understanding of preceding topics and further demonstrates how different practices and technologies can be applied together as part of greater solutions.

## TRAINING AND EXAM PREPARATION RESOURCES

You can supplement this course with a number of available resources to assist with both learning and exam preparation. Contact [info@arcitura.com](mailto:info@arcitura.com) with any questions.

### *Certification Exam Prep Kit*

A set of additional practice questions is available to support exam preparation.

### *Digital Course Files*

For each course you can order a set of downloadable digital course materials comprised of printable, watermarked workbook and poster PDF files.

### *Printed Course Materials*

The printed workbooks and posters for each course can be ordered in B&W and full-color, and can be shipped worldwide.

### *One-on-One Coaching*

Certified Trainers are available to provide online coaching on an hourly basis and in all time zones.

### *Instructor-Led Training*

Certified Trainers are available to provide virtual and onsite training workshops for this and other Arcitura courses.
