

# CLOUD GOVERNANCE

## Training & Certification Guide

Arcitura<sup>®</sup>  
DIGITAL

## About Cloud School

The Cloud School from Arcitura provides formal education and accreditation programs dedicated to fields of practice associated with Cloud Computing, including technology architecture, security, governance and specialized areas of cloud technology.

The Cloud School curriculum is comprised of 18 course modules and 7 certification tracks. Exams are available worldwide via Pearson VUE testing centers, as well as via Pearson VUE OnVue online proctoring and on-site delivery by Certified Trainers. Achieving a passing grade on the required exam(s) achieves a certification for which a digital accreditation certificate is automatically issued by Arcitura and a digital certification badge is issued by Acclaim/Credly.

## HOW TO TAKE THIS COURSE

### ARCITURA ELEARNING OPTIONS

To give you the most flexibility to achieve your learning goals and accommodate your preferences, this course is made available via two Arcitura eLearning solutions: An interactive environment with graded exercises and a graded self-test, as well as a study kit account that supports online/offline access and custom annotations.

To learn more, visit: [www.arcitura.com/elearning](http://www.arcitura.com/elearning)

To enroll, visit: [digital.arcitura.com/courses](http://digital.arcitura.com/courses)

### ONSITE WORKSHOPS

Private onsite workshops can be delivered by Certified Trainers from Arcitura and authorized training partners for both small and large groups. Each workshop participant can receive access to the full Arcitura Digital eLearning course materials. Each workshop agenda, format and schedule can be tailored to client requirements.

To learn more, visit: [www.arcitura.com/workshops](http://www.arcitura.com/workshops)

### VIRTUAL WORKSHOPS

Private virtual workshops can be delivered by Certified Trainers for small and large groups, as well as individual participants. Workshop participants receive access to the course materials via the Arcitura Digital eLearning platform. Virtual workshop agendas can be tailored with greater flexibility to accommodate more distributed and fragmented training schedules.

To learn more, visit: [www.arcitura.com/workshops](http://www.arcitura.com/workshops)

Several additional learning and exam preparation products and services are available, including coaching, exam prep kits and digital downloads. See the Training and Exam Preparation Resources page for details.

## HOW TO GET STARTED

Welcome to the Cloud Governance course! This course is comprised of a set of modules. Each module has a set of lessons and is further supplemented with exercises to help reinforce your understanding of key topics. Upon completing the course, you can optionally proceed to prepare yourself for the certification exam (as explained on the *How to get Certified* page).

Additional resources are available to assist you with completing this course, including downloadable digital course files, printed course materials, coaching hours and instructor-led training services (as explained on the *Training and Exam Preparation Resources* page.)

## PREREQUISITE

The prerequisite for this course is the completion of the Cloud Computing course. It is recommended that you complete the Cloud Computing course prior to starting the Cloud Governance course.

### MORE INFO

To enroll in this course, visit:  
[digital.arcitura.com/courses](https://digital.arcitura.com/courses)

## HOW TO GET CERTIFIED

You can become a Certified Cloud Governance Specialist! This course can prepare you for the official Cloud Governance Specialist Certification exam, which can be taken worldwide at Pearson VUE testing centers, via Pearson VUE online proctoring and/or Arcitura direct proctoring.

Upon attaining a passing grade on the certification exam (and fulfilling any other prerequisite exam requirements) you will achieve the Cloud Governance Specialist Certification, after which you will automatically receive an official digital Accreditation Certificate and a digital Certification Badge from Acclaim/Credly with an account that supports the online verification of your certification status. Digital accreditation certificates and badges are free of charge.

Additional resources are available to assist you with preparing for the certification exam, including practice exam questions, downloadable digital course files, printed course materials, coaching hours and instructor-led training services (as explained on the *Training and Exam Preparation Resources* page.)

### MORE INFO

To learn more about this certification and exam, visit:  
[www.arcitura.com/certifications](http://www.arcitura.com/certifications)

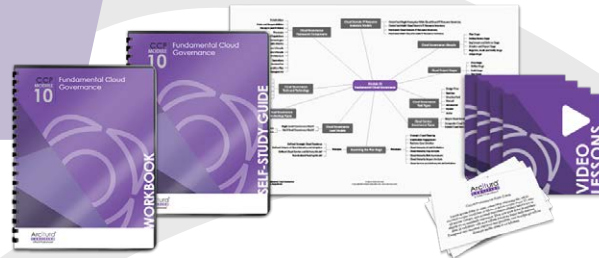

## COURSE MODULE OUTLINES

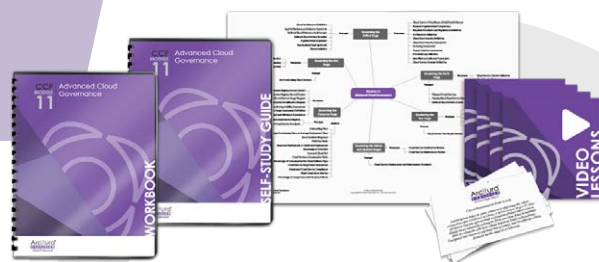

The Cloud Governance course is comprised of the following course modules. Outlines for these course modules are provided on the subsequent pages.

### Fundamental Cloud Governance

### Advanced Cloud Governance

### Cloud Governance Lab

# Fundamental Cloud Governance

//////

This course module explains IT governance as it pertains to the evolution and regulation of cloud computing environments and assets. Numerous models and framework components are explored to establish highly structured models for identifying and associating formal cloud governance precepts and processes to common cloud project stages.

The cloud governance lifecycle itself is described, along with associated tools and technologies that are further categorized into technology types that help automate different cloud governance task types. Cloud domain IT resource inventory models and cloud governance level models are also defined to help formalize and customize a comprehensive cloud governance framework.

Finally, the module concludes by providing precepts and processes for the project plan stage, including strategic roadmap definition and criteria for cloud maturity and adoption. Additional project stages are covered in Module 11.

The following primary topics are covered:

- Understanding Cloud Governance Programs, Models, and Controls
- The Cloud Governance Lifecycle
- Common Cloud Project Lifecycle Stages (and How They are Governed)
- Cloud Domain IT Resource Inventory Models (centralized/federated cloud, centralized/federated multi-cloud, etc.)
- Cloud Governance Task Types (unsubscribed, automated, passive, active, etc.)
- Cloud Service Governance Types (simple, composite, hybrid, etc.)
- Cloud Governance Framework Components
- Cloud Governance Tools and Technology (registries, repositories, agents, network relays, policy systems, etc.)
- Cloud Governance Technology Types (administrative, enforcement, monitoring, reporting)
- Cloud Governance Precepts and Processes
- Cloud Governance Level Models (single/multi enterprise/corporate)
- Defined Strategic Cloud Roadmap
- Defined Criteria of Cloud Maturity and Adoption
- Defined Cloud Service and Delivery Model
- Standardized Funding Model
- Strategic Cloud Planning and Stakeholder Engagement
- Cloud Maturity Model Definition and Cloud Maturity Gap Analysis
- Cloud Maturity Risk Assessment and Cloud Maturity Impact Analysis

# Advanced Cloud Governance

This course module builds upon the fundamental models and framework components covered in CCP Module 10 and identifies and describes numerous cloud governance precepts and processes for cloud project Define, Build, Test, Deliver, Operate, Consume and End Stages, as follows:

- Cloud Architecture Definition, Applied Business/Industry Standards, Defined Cloud Reference Architecture
- Defined Cloud Service Domains, Organizational Alignment and Standardized Funding Model, Tenant Isolation
- Cloud Center of Excellence (CCoE) Establishment, Ensured Organizational Competency
- Required Standards and Regulations Definition, Architecture Validation, Cloud Data Security Definition
- Cloud Data Security Assessment, Licensing and Tenant Isolation Assessments, Historical Log Collection
- Identified and Adhered Constraints, Cloud Service Domain Definition, Cloud Service Criteria Validation
- Cloud Service Review, SLA Matching, Cloud Service Standardization, Cloud Service Policy Validation
- Build Process Validation, Centralized Cloud Service Registry, Interoperable Cloud Service Standards
- Cloud Service Registry Access Control, Cloud Service Registry Record Review, Cloud Shared Usage Request
- Cloud Shared Service Modification Request, Cloud Service Interoperability Assessment
- Cloud Service Certification Review, Cloud Service Maintenance Review, Cloud Service Deployment Standards
- Cloud Service Test Results Review, Cloud Testing Tool Standards, Cloud Testing Parameter Standards
- Cloud Service Testing Standards, Cloud Integration Testing Standards, Cloud Test Data Usage
- Cloud Service De-Provisioning Notification, Cloud Service De-Provisioning
- Post-Termination Assessment, De-Provisioning Cloud Services

The following cloud governance metrics are also described: Metric Usage Assessment Definition, Cloud Service Operational Efficiency Governance Onboarding Time, Average Provisioning Time or Average Deployment Time, Smart Incident Response, Problems Ratio, Improved Deployment or Optimized Deployment, Percentage of SLAs Met, Assessed Cloud SLA, Cloud Services Consumption Ratio, Percentage of Consumption Per Cloud Delivery Type, Cloud Service Usage State Assessment, Monitored Cloud Service Compliance, Cloud Compliance Metrics, Percentage of Compliance with Security Policies.

# Cloud Governance Lab

This course module presents participants with a series of exercises and problems that are designed to test their ability to apply their knowledge of topics covered in previous modules. Completing this lab will help highlight areas that require further attention and will help prove proficiency in the application of cloud governance framework components, models, precepts and processes.

The following exercises are provided:

- Reading Exercise 12.1: eKOF Case Study Background
- Lab Exercise 12.2: Organizational Assessment
- Lab Exercise 12.3: Applying Initial Cloud Governance Precepts and Processes
- Lab Exercise 12.4: Addressing the Shadow IT Problem
- Lab Exercise 12.5: Establishing New Roles
- Lab Exercise 12.6: Governing the Deployment and Management of Cloud Services
- Lab Exercise 12.7: Solving Problems with eKOF's Cloud Services
- Lab Exercise 12.8: Cloud Service Termination
- Reading Exercise 12.9: RapidDev Mini-Case Study Background
- Lab Exercise 12.10: Governing RapidDev's Cloud Transition Plan
- Lab Exercise 12.11: Preliminary Plan Stage Cloud Governance
- Lab Exercise 12.12: Choosing the Cloud Domain IT Resource Inventory Model

# TRAINING AND EXAM PREPARATION RESOURCES

You can supplement this course with a number of available resources to assist with both learning and exam preparation. Contact [info@arcitura.com](mailto:info@arcitura.com) with any questions.

## Certification Exam Prep Kit

A set of additional practice questions is available to support exam preparation.

## Digital Course Files

For each course you can order a set of downloadable digital course materials comprised of printable, watermarked workbook and poster PDF files.

## Printed Course Materials

The printed workbooks and posters for each course can be ordered in B&W and full-color, and can be shipped worldwide.

## One-on-One Coaching

Certified Trainers are available to provide online coaching on an hourly basis and in all time zones.

## Instructor-Led Training

Certified Trainers are available to provide virtual and onsite training workshops for this and other Arcitura courses.
