About Cloud School

The Cloud School from Arcitura provides formal education and accreditation programs dedicated to fields of practice associated with Cloud Computing, including technology architecture, security, governance and specialized areas of cloud technology.

The Cloud School curriculum is comprised of 18 course modules and 7 certification tracks. Exams are available worldwide via Pearson VUE testing centers, as well as via Pearson VUE OnVue online proctoring and on-site delivery by Certified Trainers. Achieving a passing grade on the required exam(s) achieves a certification for which a digital accreditation certificate is automatically issued by Arcitura and a digital certification badge is issued by Acclaim/Credly.

HOW TO TAKE THIS COURSE

ARCITURA ELEARNING OPTIONS

To give you the most flexibility to achieve your learning goals and accommodate your preferences, this course is made available via two Arcitura eLearning solutions: An interactive environment with graded exercises and a graded self-test, as well as a study kit account that supports online/offline access and custom annotations.

To learn more, visit: www.arcitura.com/elearning

To enroll, visit: digital.arcitura.com/courses

ONSITE WORKSHOPS

Private onsite workshops can be delivered by Certified Trainers from Arcitura and authorized training partners for both small and large groups. Each workshop participant can receive access to the full Arcitura Digital eLearning course materials. Each workshop agenda, format and schedule can be tailored to client requirements.

To learn more, visit: www.arcitura.com/workshops

VIRTUAL WORKSHOPS

Private virtual workshops can be delivered by Certified Trainers for small and large groups, as well as individual participants. Workshop participants receive access to the course materials via the Arcitura Digital eLearning platform. Virtual workshop agendas can be tailored with greater flexibility to accommodate more distributed and fragmented training schedules.

To learn more, visit: www.arcitura.com/workshops

Several additional learning and exam preparation products and services are available, including coaching, exam prep kits and digital downloads. See the Training and Exam Preparation Resources page for details.

HOW TO GET STARTED

Welcome to the Cloud Storage course! This course is comprised of a set of modules. Each module has a set of lessons and is further supplemented with exercises to help reinforce your understanding of key topics. Upon completing the course, you can optionally proceed to prepare yourself for the certification exam (as explained on the *How to get Certified* page).

Additional resources are available to assist you with completing this course, including downloadable digital course files, printed course materials, coaching hours and instructor-led training services (as explained on the *Training and Exam Preparation Resources* page.)

PREREQUISITE

The prerequisite for this course is the completion of the Cloud Computing course. It is recommended that you complete the Cloud Computing course prior to starting the Cloud Storage course.

MORE INFO

To enroll in this course, visit:
digital.arcitura.com/courses

A Certified Cloud Storage Specialist has a detailed understanding of cloud storage mechanisms, devices and technologies, and has knowledge of the practices pertaining to the design and integration of Cloud Storage components and services.

HOW TO GET CERTIFIED

You can become a Certified Cloud Storage Specialist! This course can prepare you for the official Cloud Storage Specialist Certification exam, which can be taken worldwide at Pearson VUE testing centers, via Pearson VUE online proctoring and/or Arcitura direct proctoring.

Upon attaining a passing grade on the certification exam (and fulfilling any other prerequisite exam requirements) you will achieve the Cloud Storage Specialist Certification, after which you will automatically receive an official digital Accreditation Certificate and a digital Certification Badge from Acclaim/Credly with an account that supports the online verification of your certification status. Digital accreditation certificates and badges are free of charge.

Additional resources are available to assist you with preparing for the certification exam, including practice exam questions, downloadable digital course files, printed course materials, coaching hours and instructor-led training services (as explained on the *Training and Exam Preparation Resources* page.)

COURSE MODULE OUTLINES

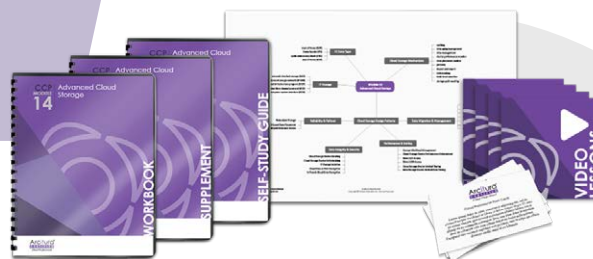

The Cloud Storage course is comprised of the following course modules. Outlines for these course modules are provided on the subsequent pages.

Fundamental Cloud Storage

Advanced Cloud Storage

Cloud Storage Lab

Fundamental Cloud Storage

This course module expands upon the cloud storage topics introduced in Module 2 by further exploring cloud storage devices, structures, and technologies from a more technical and implementation-specific perspective. A set of cloud storage mechanisms and devices are established, along with in-depth coverage of NoSQL and cloud storage services.

The following primary topics are covered:

- Fundamental Storage and Disk Concepts
- IOPS, Disk Throughput, Access Time, Seek Time and Relational Latency
- File Systems and Volume Management
- Distributed/Clustered File Systems, Concatenation and Partitioning
- RAIDs (Descriptions, Comparison, Penalties)
- I/O & Capacity
- Concatenation, Vertical Tiering and Disk Splitting
- Types of Storage (Data Processing, Local, Directly Attached, Remote)
- Storage Levels (Block, File, Object)
- Basic Storage Infrastructure Components
- I/O Flow, NICs and Storage Switches
- Backup Fundamentals
- Snapshots, Disaster Recovery/Protection, Recovery Time

Advanced Cloud Storage

A number of advanced topics are introduced in this course module, including persistent storage, redundant storage, cloud-attached storage, cloud-remote storage, cloud storage gateways, cloud storage brokers, Direct Attached Storage (DAS), Network Attached Storage (NAS), Storage Area Network (SAN), various cloud storage-related design patterns, and the overall information lifecycle management as it applies specifically to cloud-hosted data.

The following primary topics are covered:

- Cloud Consumer Storage Access Types
- HBA Replication
- IP and Non-IP Storage
- Fibre Channel Storage and Fibre Channel over Ethernet
- Front and Back-end Storage Device Components
- Storage Network Components
- HBAs FC, iSCSI and FCoE) and Software Storage Adapters
- LUN Presenting and LUN Expansion (Striped and Concatenated)
- LUN, Device and Path Masking
- Fibre Channel Storage Area Network (FC SAN) Components
- FCoE and Converged Infrastructure (including FC Point-to-Point, Arbitrated Loop, Switched Fabric)
- Lossless Ethernet, Congestion Notification, Enhanced Transmission Selection
- IP SAN, FCIP and IP Storage Isolation

Cloud Storage Lab

This course module presents participants with a series of exercises and problems that are designed to test their ability to apply their knowledge of topics covered in previous modules. Completing this lab will help highlight areas that require further attention and will help prove proficiency in cloud computing storage technologies, mechanisms, devices and patterns as they are applied and combined to solve real-world problems.

The following exercises are provided:

- Reading Exercise 15.1: Case Study Background E-Learning Provider
- Lab Exercise 15.2: Cloud Storage Access
- Lab Exercise 15.3: Cloud Storage Data Isolation
- Reading Exercise 15.4: Case Study Background Web Service Provider
- Lab Exercise 15.5: Cloud Storage Sharing
- Lab Exercise 15.6: Cloud Storage Management
- Reading Exercise 15.7: Case Study Background Car Rental Company
- Lab Exercise 15.8: Cloud Storage Data Transfer
- Lab Exercise 15.9: Cloud Storage Security
- Reading Exercise 15.10: Case Study Background Digital Print and Design Company
- Lab Exercise 15.11: Cloud Storage RAIDs
- Lab Exercise 15.12: Cloud Storage Tiering
- Lab Exercise 15.13: Cloud Storage LUNs
- Lab Exercise 15.14: Cloud Storage Layers

TRAINING AND EXAM PREPARATION RESOURCES

You can supplement this course with a number of available resources to assist with both learning and exam preparation. Contact info@arcitura.com with any questions.

Certification Exam Prep Kit

A set of additional practice questions is available to support exam preparation.

Digital Course Files

For each course you can order a set of downloadable digital course materials comprised of printable, watermarked workbook and poster PDF files.

Printed Course Materials

The printed workbooks and posters for each course can be ordered in B&W and full-color, and can be shipped worldwide.

One-on-One Coaching

Certified Trainers are available to provide online coaching on an hourly basis and in all time zones.

Instructor-Led Training

Certified Trainers are available to provide virtual and onsite training workshops for this and other Arcitura courses.
