About Cloud School

The Cloud School from Arcitura provides formal education and accreditation programs dedicated to fields of practice associated with Cloud Computing, including technology architecture, security, governance and specialized areas of cloud technology.

The Cloud School curriculum is comprised of 18 course modules and 7 certification tracks. Exams are available worldwide via Pearson VUE testing centers, as well as via Pearson VUE OnVue online proctoring and on-site delivery by Certified Trainers. Achieving a passing grade on the required exam(s) achieves a certification for which a digital accreditation certificate is automatically issued by Arcitura and a digital certification badge is issued by Acclaim/Credly.

HOW TO TAKE THIS COURSE

ARCITURA ELEARNING OPTIONS

To give you the most flexibility to achieve your learning goals and accommodate your preferences, this course is made available via two Arcitura eLearning solutions: An interactive environment with graded exercises and a graded self-test, as well as a study kit account that supports online/offline access and custom annotations.

To learn more, visit: www.arcitura.com/elearning

To enroll, visit: digital.arcitura.com/courses

ONSITE WORKSHOPS

Private onsite workshops can be delivered by Certified Trainers from Arcitura and authorized training partners for both small and large groups. Each workshop participant can receive access to the full Arcitura Digital eLearning course materials. Each workshop agenda, format and schedule can be tailored to client requirements.

To learn more, visit: www.arcitura.com/workshops

VIRTUAL WORKSHOPS

Private virtual workshops can be delivered by Certified Trainers for small and large groups, as well as individual participants. Workshop participants receive access to the course materials via the Arcitura Digital eLearning platform. Virtual workshop agendas can be tailored with greater flexibility to accommodate more distributed and fragmented training schedules.

To learn more, visit: www.arcitura.com/workshops

Several additional learning and exam preparation products and services are available, including coaching, exam prep kits and digital downloads. See the Training and Exam Preparation Resources page for details.

HOW TO GET STARTED

Welcome to the Cloud Virtualization course! This course is comprised of a set of modules. Each module has a set of lessons and is further supplemented with exercises to help reinforce your understanding of key topics. Upon completing the course, you can optionally proceed to prepare yourself for the certification exam (as explained on the *How to get Certified* page).

Additional resources are available to assist you with completing this course, including downloadable digital course files, printed course materials, coaching hours and instructor-led training services (as explained on the *Training and Exam Preparation Resources* page.)

PREREQUISITE

The prerequisite for this course is the completion of the Cloud Computing course. It is recommended that you complete the Cloud Computing course prior to starting the Cloud Virtualization course.

MORE INFO

To enroll in this course, visit:
digital.arcitura.com/courses

HOW TO GET CERTIFIED

You can become a Certified Cloud Virtualization Specialist! This course can prepare you for the official Cloud Virtualization Specialist Certification exam, which can be taken worldwide at Pearson VUE testing centers, via Pearson VUE online proctoring and/or Arcitura direct proctoring.

Upon attaining a passing grade on the certification exam (and fulfilling any other prerequisite exam requirements) you will achieve the Cloud Virtualization Specialist Certification, after which you will automatically receive an official digital Accreditation Certificate and a digital Certification Badge from Acclaim/Credly with an account that supports the online verification of your certification status. Digital accreditation certificates and badges are free of charge.

Additional resources are available to assist you with preparing for the certification exam, including practice exam questions, downloadable digital course files, printed course materials, coaching hours and instructor-led training services (as explained on the *Training and Exam Preparation Resources* page.)

COURSE MODULE OUTLINES

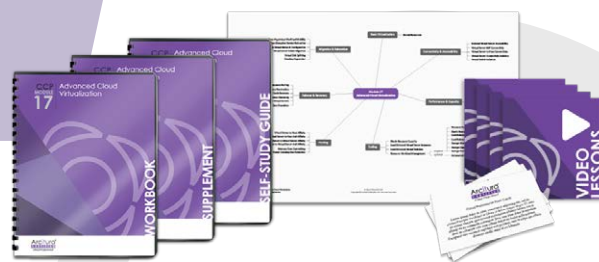

The Cloud Virtualization course is comprised of the following course modules. Outlines for these course modules are provided on the subsequent pages.

Fundamental Cloud Virtualization

Advanced Cloud Virtualization

Cloud Virtualization Lab

Fundamental Cloud Virtualization

This course module provides solid, end-to-end, foundational coverage of virtualization technologies, types and mechanisms. Core topic areas pertaining to the fundamental virtualization mechanisms and types used within contemporary cloud computing platforms are explored, along with various key performance indicators and related metrics.

The following primary topics are covered:

- A Brief history of Virtualization
- Virtualization Concepts and Definitions
- Traditional vs. Contemporary Virtualization
- 10 Virtualization Types
- Data Center, Storage, Application, Desktop, Network, Server, etc.
- 18 Virtualization Mechanisms
- Virtualization Agent, Virtual Server State Manager, Virtual Appliance, Virtual Firewall, etc.
- Virtual Machines, Hypervisor Drill-Down
- vCPU, vRAM, vDisk, Virtual to Virtual Conversion
- Thick and Thin Provisioning, Virtual Switches, NIC Teaming
- Service Virtualization ROI and Strategic Benefits
- Virtualization Considerations for Cloud Providers and Consumers
- Resource Pooling and Management, Virtual Infrastructure and Management
- Monitoring and KPIs
- Capacity Planning and Management Considerations

Advanced Cloud Virtualization

This course module builds upon Module 16 by exploring a range of industry practices and management and design topics for cloud-based contemporary virtualization environments, by breaking them down into design patterns and technologies that can be combined to form common cloud-based technology architectures and solutions.

The following primary topics are covered:

- Connectivity and Accessibility Considerations
- Virtual Server and Virtual Switch Isolation
- NAT/Host and External Connectivity
- Performance, Capacity and Scaling Considerations
- Direct I/O and Single Root I/O Virtualization
- LUN Access and NIC Teaming
- Elastic Resources and Resource Workload Management
- Load Balanced Virtual Server and Virtual Switches
- Different Forms of Virtual Server and Host Affinity/Non-Affinity
- Memory Over-Committing and Power Consumption Reduction
- Failover and Recovery and Zero Downtime
- Resource Pooling and Reservation and Auto Crash Recovery
- Hypervisor Clustering and Redundant Physical Connections
- Migration and Relocation Considerations
- Cross-Hypervisor Workload Mobility and Non-Disruptive Service Relocation
- Persistent Virtual Network Configurations and Virtual Server Folder Migration
- Virtual Disk Splitting and Stateless Hypervisors

Cloud Virtualization Lab

This course module presents participants with a series of exercises and problems that are designed to test their ability to apply their knowledge of topics covered in previous modules. Completing this lab will help highlight areas that require further attention and will help prove proficiency in cloud computing virtualization mechanisms, patterns, technologies and platforms as they are applied and combined to solve real-world problems.

The following exercises are provided:

- Reading Exercise 18.1: Case Study Background DVLP
- Lab Exercise 18.2: Improve Virtual Server Availability & Performance
- Lab Exercise 18.3: Improve Workload Processing
- Lab Exercise 18.4: Design Virtual Server Connectivity Architecture
- Lab Exercise 18.5: Improve Virtual Server Availability
- Reading Exercise 18.6: Case Study Background ARCT
- Lab Exercise 18.7: Enable Correct Service and Virtual Server Access
- Lab Exercise 18.8: Improve Virtual Server Architecture
- Lab Exercise 18.9: Improve Virtual Server Efficiency
- Lab Exercise 18.10: Improve Resource Utilization

TRAINING AND EXAM PREPARATION RESOURCES

You can supplement this course with a number of available resources to assist with both learning and exam preparation. Contact info@arcitura.com with any questions.

Certification Exam Prep Kit

A set of additional practice questions is available to support exam preparation.

Digital Course Files

For each course you can order a set of downloadable digital course materials comprised of printable, watermarked workbook and poster PDF files.

Printed Course Materials

The printed workbooks and posters for each course can be ordered in B&W and full-color, and can be shipped worldwide.

One-on-One Coaching

Certified Trainers are available to provide online coaching on an hourly basis and in all time zones.

Instructor-Led Training

Certified Trainers are available to provide virtual and onsite training workshops for this and other Arcitura courses.
